

HASSIA-REDATRON

POWER FOR PACKAGING

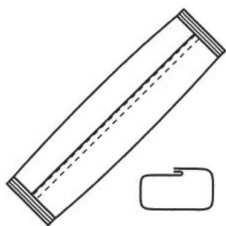

Vertical Form, Fill, and Seal Machines For StickPacks

For liquids like sauces, shampoo or yoghurt

For powders like milk powder, detergent or spices

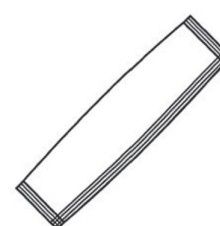

StickPack

StickPack with
contour sealing

StickPack with
contour sealing and
die cut

StickPack
3-side sealed

- Reliable & efficient production - high output, OEE, and dosing accuracy
- Future ready - solutions for sustainable films
- 50 years of experience - engineered and manufactured in Germany
- Your personal partner from first idea to future demands
- References in Food, Dairy, Personal & Household Care, Pharmaceutical, Healthcare, and Chemical
- Hygiene: SIP, CIP (manual or automatic), Ultra Clean

Flexibag STi 200, STi 300, STi 450

FlexiBag® StickPack form-, fill- and seal-machines

Intermittend operation (STi), high performance every second.

STICKPACK TYPES AND SIZES

		STi 200	STi 300	STi 450
StickPack	For liquid, pasteous, powdery and granulated products			
Format width, maximum	mm	200	300	450
Draw-off length, maximum	mm	180	200	200
Minimal StickPack width	mm	30	30	30
Machine format (depending on StickPack size)	lanes	4	12	15
Film width, maximum	mm	520	600	900
Reel diameter, maximum	mm	600	800	800
Reel core diameter	mm	76	152	152

NOMINAL OUTPUT* (DIN 8743)

Intermittent (STi)	cycles/minute	up to 100	up to 100	up to 100
--------------------	---------------	-----------	-----------	-----------

* depending on material, product, sachet size and dosing system

TECHNICAL DATA

		Nominal voltage according to DIN IEC 38: 230 /400 V, 50 Hz 3 phases, zero (full load), protective earth			
	Power consumption (average for basic machines)	approx. kVA	16	20	22
	Protection type	Main drive unit DIN 40050 - IP 54			
Dimensions of basic machine (excluding dosing system)	Width	approx. mm	1,000	1,500	1,650
	Length	approx. mm	2,100	2,800	2,800
	Height	approx. mm	1,750	2,050	2,050
	Weight	approx. kg	850	1,300	1,600
	Machine housing	Stainless steel
