Your exact needs define our precision features.

Our state-of-the-art packaging solutions are developed to meet your precise needs. We pour our experiences from multiple industries into every machine we make!

Our comprehensive portfolio comprises all packaging-machine formats, there really is no need to compromise. You can choose a concept, style, speed, throughput and size that perfectly matches your application.

Electronic axis control and fully integrated in-house developed robots are deployed in modular machine blocks that adapt to your every need... and can grow as you grow.

Premium technology, cabinet-free frameworks and hygienic design principals are coupled to an easy-to-follow visual machine management system, backed by extensive immersive technology and remote access capabilities. We are ready for your packaging challenges.

The agility to keep pace with consumer demand.

The coffee industry is incredibly challenging, with market forces and brand competitiveness demanding constant innovation from suppliers.

You need a packaging partner that can help you not only keep up with these market demands, but also set the pace, confident that new packaging styles and formats are within the capabilities of your packaging technology.

Capsules, pods, cans, sticks and bags all present unique challenges and demand different capabilities. With multiple successes in all formats – and not just in coffee – Cama Group can help you design eye-catching packaging concepts, and then deliver the means to fill them, accurately, repeatedly and at speed.

And you don't need to stand still. When you change, the machine changes with you!
