cama Ice Cream

Cool solutions for your entire range.

The ice cream and frozen snacks industry add environmental capabilities on top of existing industry demands for speed, precision & repeatability. And much like the bakery sector, delicacy and positive handling is essential to ensure damage-free products that can be enjoyed by consumers any day of the year.

With multiple solutions in multiple applications in many different industries across the globe, we can call on a huge installed base of experience and domain expertise to formulate, fabricate and enhance packaging solutions that are ideal for your specific application.

Our machines are packed with best practice and industry leading technology, so you know you really are getting the best that not only this industry, but many others too, have to offer.

With a broad range of capabilities, platforms and techniques, you won't need to adapt your processes to suit our technology, we will adapt our technology to suit you. And with our comprehensive range of packaging styles and formats, you have maximum flexibility to choose a solution that precisely matches your application.

Full electronic control and tightly integrated in-house developed robots are housed in modular and monobloc machines that cater for your precise requirements... and can grow as you grow.

Premium Technology, cabinet-free frameworks and hygienic design principals are coupled to an easy-to-follow visual machine management system, backed by extensive immersive technology and remote access capabilities.

We will help you conquer your packaging challenges!

Performance, flexibility and efficiency at the forefront.

Like many other food and beverage industries, the frozen snack and ice cream industry is heavily influenced by consumer needs and trends, but this challenge is compounded by wide seasonal-demand changes.

It is further complicated by a huge range of product styles, formats, sizes and shapes. As a result, you need a packaging partner that can handle massive varieties of throughput and product variability.

If you can design it, we can package it! Bags, packets, flow wraps, trays, cases, cartons, containers, with or without inserts... you name it, we can package it - using side load, top load and robots, whatever best suits your needs.

With multiple successes in multiple packaging formats, products and markets, Cama Group can help you design eye-catching packaging concepts, and then deliver the means to fill them, accurately, repeatedly and at speed.

And you there's no need to stand still. When your products change, the machine changes with you!

1. Cones into RSC case - Top Load.
2. Cones into 3-flap box - Top Load.
3. Ice lollis into 3-flap box - Top Load.
4. Cones into RSC case - Top Load.
